

OBJECTIVE

Jack-of-all-trades backend engineer looking for a role in the **Portland, OR** area or fully remote

TECHNICAL SKILLS

- Modern API development (both REST and GraphQL) in **Java**, **Kotlin**, **Scala**, and **Python**
 - Web application development with **React**, **TypeScript**, and **Tailwind CSS**
 - Build and deploy automation with **GitHub Actions**, **CircleCI**, and **Docker**
- Cloud-based architecture in **AWS** including scale-to-zero deploys in **Lambda** and **API Gateway**
- Database integration and management with **PostgreSQL**, **MySQL**, **DynamoDB**, and **MongoDB**

ADDITIONAL SKILLS

- **Management experience**, leading two teams of engineers towards aggressive goals
 - Ability to work efficiently in a team environment as well as independently
 - Effective interpersonal and written communication skills

WORK EXPERIENCE

TRUEWORK

(Apr 2023 –) **Senior Software Engineer**

- Deliver user-facing features against Python monorepo and React/Typescript frontend
 - Add integrations with LOS platforms and employment/income data providers

FLOW FINANCE

(Sep 2022 – Jan 2023) **Lead Engineer**

(Feb 2021 – Sep 2022) **Senior Software Engineer**

- Develop generic platform for building and deploying Scala code to AWS Lambda
- Build data pipeline from scratch, pulling data in real time and at low cost from data providers
 - Write backing logic for internal services, enabling bookkeepers to easily manipulate data upstream
- Mentor junior engineers on the JVM, Scala, and functional programming concepts from the ground up

CASH APP

(Sep 2020 – Feb 2021) **Senior Software Engineer**

- Maintain integration with Salesforce, empowering Cash App's customer support team
- Discovery and solution work for handling official customer complaints via multiple input sources

ACORNS

(Oct 2019 – May 2020) **Engineering Manager**

(Jul 2018 – Oct 2019) **Senior Software Engineer**

- Maintain and refactor monolithic Scala service, responsible for managing over 1M IRAs
 - Create serverless infrastructure to synchronize investment statuses across systems
- Lead engineering team of nine, emphasizing individual growth and team achievements
 - Reinforce adherence to Scrum principles, increasing velocity and productivity

NIKE

(Jan 2017 – Jul 2018) **Senior Software Engineer**

- Devise and implement architecture for promoting search results on store.nike.com
 - Craft Elasticsearch solutions for multi-tenant needs
- Implement and tune search engine scoring mechanism via Apache Spark/Hive

SPORTSLABS

(Sep 2015 – Dec 2016) **Senior Software Engineer**

(Jan 2015 – Sep 2015) **Software Engineer**

- Overhaul Spring REST API servicing the college sports domain
- Devise new build/deployment mechanisms for AWS Elastic Beanstalk, driven through Bamboo
 - Diagnose and fix MongoDB performance problems
 - Mentor junior engineers to improve technical knowledge and performance

DPRA INC.

(Oct 2014 – Jan 2015) **Programmer**

- Maintain and upgrade fleet of Java EE applications

- Refactor legacy code, bringing it under test and making it EE container agnostic

RED ROBIN

(Mar 2014 – Aug 2014) **Enterprise Developer**

- Port existing Rails application for customer loyalty program into Spring MVC
- Design and develop backing RESTful service, written with Spring, CXF, and Hibernate
 - Draft and implement Postgres schema for customer information

RECONDO TECHNOLOGY

(Aug 2013 – Feb 2014) **Associate Software Engineer**

- Parse, normalize, and persist customer input in a Spring/Camel based service
 - Persist medical encounter information to Postgres using Hibernate
 - Develop and maintain standalone Java-based web services

FULLCONTACT

(Aug 2012 – Aug 2013) **Software Development Intern**

- Develop RESTful API for obtaining contact information in Grails
- Integrate Twitter and Foursquare APIs with contact management system
 - Script exports of seeded contact data in Hadoop

OTHER EXPERIENCE

BESTMAGICCARD.COM // BESTBASICLAND.COM

- Sister sites that crowdsource rankings for Magic: the Gathering™ cards
- Monorepo TypeScript / React frontend powering both web applications
 - AWS infrastructure deployed via TypeScript CDK v2

EDUCATION

BS in Computer Science and Applied Mathematics,
Colorado School of Mines

ACHIEVEMENTS // AWARDS

- National Merit Scholarship Finalist
- Northrop Grumman Corporate Sponsor Scholarship Winner
